assist™

ASSIST does not take the place of a counselor on your campus. It is intended to help students and counselors work together to establish an appropriate path toward transferring from a public California community college to a California university.

Major Articulation Agreement

Electrical & Computer Engineering, B.S.

Effective during the **2025-2026** academic year

To: University of California, Berkeley
2025-2026 General Catalog, Semester

From: De Anza College
2025-2026 General Catalog, Quarter

COLLEGE OF ENGINEERING JUNIOR TRANSFER ADMISSION REQUIREMENTS

Admission to the UC Berkeley **College of Engineering** is highly competitive.

This is a new major at UC Berkeley starting Fall 2025. Applicants to the **Electrical and and Computer Engineering** major must complete all required core UCB preparation courses in order to be eligible for admission. Only applicants who have completed 100% of these required courses will be considered for admission. Required courses for admission to the major must be completed by the end of the spring semester prior to fall enrollment. **A summer 2026 course is not considered to be "work in progress" for the fall 2026 selection process.**

If a series of courses at a community college is required (e.g., Chemistry 101 + 102 + 103 = Chemistry A and B), all the courses in the series must be completed, and must (unless otherwise indicated) be completed at the same community college. Partial completion (e.g., 2 of the 3 required courses) will result in zero credit toward the requirement(s), and the applicant will NOT be considered for admission. The only exception to the series rule is Math 54. If Math 54 is split into two different courses, one covering linear algebra and one covering differential equations, we strongly encourage applicants to take both courses at the same community college; however, the College of Engineering will accept linear algebra from one school and differential equations from a different school.

Lower division UC Berkeley courses required for graduation (but not admission) are also listed in the major agreements and are strongly recommended to be taken to strengthen one's application. The more of these courses completed, the stronger the application will be.

Required core courses for admission: (all these courses must be completed to be considered for admission)
- UCB MATH 51; 52; 53; 54
- UCB PHYSICS 7A; 7B
- UCB READING AND COMPOSITION A; B
- One from UCB ASTRON 7A or 7B or BIOLOGY 1A/1AL or BIOLOGY 1B or CHEM 1A/1AL or CHEM 1B or CHEM 3A/3AL or CHEM 3B/3BL or MCELLBI 32/32L or PHYSICS 7C

Strongly recommended courses: (if your college offers the courses listed below and they are articulated, taking them will strengthen your application) If no articulation, students are encouraged to take an introductory course in electronics or circuits AND courses in Java, C++ and Data Structures.
- UCB COMPSCI 61A; 61B; 61C; 70
- UCB EECS 16A; 16B

Articulation subject to completion of a university course
If the above statement is indicated under any of the community college courses listed below, you will be required to take an additional course at UC Berkeley in order to complete the requirement.

Admission is primarily based on the completeness of the applicant's lower division preparation and the level of academic achievement reflected in the student's grade point average. The UC applicant essay also plays an important role in the selection process at UC Berkeley. The College reviews the essay for evidence of interest in the student's chosen field and a thoughtful match between the academic program and the student's academic and career objectives.

The College of Engineering requires six humanities/social science courses, two of which must be reading and composition. The only non-technical admission requirement for the College of Engineering is the coursework equivalent to UC Berkeley's Reading and Composition requirement, which must be taken for a letter grade. The College of Engineering **does not recognize the Intersegmental General Education Transfer Curriculum (Cal-GETC/IGETC) and strongly discourages** students from following this option due to the number of major-specific technical courses required for engineering transfer admission.

NOTE: The Reading and Composition requirements cannot be satisfied by Cal-GETC/IGETC; applicants must complete the specific courses indicated as Reading and Composition A and B equivalents to be considered for admission. Failure to complete the exact courses listed will mean the applicant will NOT be considered for admission.

The remaining four humanities/social science requirement courses are not considered for admission purposes but are required for graduation. See http://engineering.berkeley.edu/hss for the College of Engineering humanities/social science breadth requirements and courses. Courses which are three semester units or more that appear in the following categories on the "General Education/Breadth" section of assist.org may be used to satisfy **two of** the remaining four humanities/social science course requirements for the College of Engineering. ARTS AND LITERATURE; HISTORICAL STUDIES; INTERNATIONAL STUDIES; PHILOSOPHY AND VALUES; SOCIAL AND BEHAVIORAL SCIENCES. Additionally, courses that teach a foreign language may be used to satisfy this requirement.

SAT/ACT/A-level test scores and letters of recommendation are NOT considered for admission.

NOTE: ALL REQUIRED COURSES AND ALL STRONGLY RECOMMENDED COURSES FOR THE MAJOR MUST BE TAKEN FOR A LETTER GRADE. FOR MORE INFORMATION, PLEASE CHECK THE COLLEGE'S WEB SITE FOR THE COLLEGE OF ENGINEERING UNDERGRADUATE GUIDE.

TEST CREDIT

Some Advanced Placement, International Baccalaureate, and A-Level exams can fulfill requirements in the College of Engineering. For details, please see https://engineering.berkeley.edu/students/undergraduate-guide/exams/.

REQUIRED COURSES FOR ADMISSION

1 Complete A, B, and C

A

Receiving			Sending		
MATH 51	Calculus I	4.00	MATH 1A	Calculus I	5.00
			AND		
			MATH 1B	Calculus II	5.00
			Regular and honors courses may be combined to complete this series		
			OR		
			MATH 1AH	Calculus I - HONORS	5.00
			AND		
			MATH 1BH	Calculus II - HONORS	5.00
			Regular and honors courses may be combined to complete this series		
MATH 52	Calculus II	4.00	MATH 1B	Calculus II	5.00
			AND		
			MATH 1C	Calculus III	5.00
			Regular and honors courses may be combined to complete this series		
			OR		
			MATH 1BH	Calculus II - HONORS	5.00
			AND		

	MATH 1CH Calculus III - HONORS 5.00 Regular and honors courses may be combined to complete this series
MATH 53 Multivariable Calculus 4.00	**MATH 1C** Calculus III 5.00 AND **MATH 1D** Calculus IV 5.00 Regular and honors courses may be combined to complete this series OR **MATH 1CH** Calculus III - HONORS 5.00 AND **MATH 1DH** Calculus IV - HONORS 5.00 Regular and honors courses may be combined to complete this series
MATH 54 Linear Algebra and Differential Equations 4.00	**MATH 2A** Differential Equations 5.00 AND **MATH 2B** Linear Algebra 5.00 Regular and honors courses may be combined to complete this series OR **MATH 2AH** Differential Equations - HONORS 5.00 AND **MATH 2BH** Linear Algebra - HONORS 5.00 Regular and honors courses may be combined to complete this series
PHYSICS 7A Physics for Scientists and Engineers 4.00	**PHYS 4A** Physics for Scientists and Engineers: Mechanics 6.00
PHYSICS 7B Physics for Scientists and Engineers 4.00	**PHYS 4B** Physics for Scientists and Engineers: Electricity and Magnetism 6.00 AND **PHYS 4C** Physics for Scientists and Engineers: Fluids, Waves, Optics and Thermodynamics 6.00

READING AND COMPOSITION REQUIREMENT

B

Receiving	Sending
Courses that satisfy Reading & Composition A	**ENGL C1000** Academic Reading and Writing 5.00 OR **ENGL C1000H** Academic Reading and Writing - HONORS 5.00 OR **ESL 5** Advanced Composition and Reading 5.00
Courses that satisfy Reading & Composition B	**ENGL C1001** Critical Thinking and Writing 5.00 OR **ENGL C1001H** Critical Thinking and Writing - HONORS 5.00 OR **EWRT 1B** Reading, Writing and Research 5.00 OR **EWRT 1BH** Reading, Writing and Research - HONORS 5.00

Complete 1 course or combination from the following.

C

Receiving	Sending
ASTRON 7A Introduction to Astrophysics 4.00	No Course Articulated
ASTRON 7B Introduction to Astrophysics 4.00	No Course Articulated
BIOLOGY 1A General Biology Lecture (Cells, Genetics, Animal Form & Function) 3.00 AND **BIOLOGY 1AL** General Biology Laboratory 2.00	**BIOL 6A** Form and Function in the Biological World 6.00 AND **BIOL 6B** Cell and Molecular Biology 6.00 OR **BIOL 6AH** Form and Function in the Biological World - HONORS 6.00 AND **BIOL 6B** Cell and Molecular Biology 6.00
BIOLOGY 1B General Biology (Plant Form & Function, Ecology, Evolution) 4.00	**BIOL 6A** Form and Function in the Biological World 6.00 AND **BIOL 6C** Ecology and Evolution 6.00 OR **BIOL 6AH** Form and Function in the Biological World - HONORS 6.00 AND **BIOL 6C** Ecology and Evolution 6.00

Receiving	Sending

			PHYS 4D	Physics for Scientists and Engineers: Modern Physics	6.00

STRONGLY RECOMMENDED COURSES

2 Complete the following

COMPSCI 61A	The Structure and Interpretation of Computer Programs	4.00	No Course Articulated		
COMPSCI 61B	Data Structures	4.00	**CIS 22C**	Data Abstraction and Structures	4.50
				Must complete an additional university course after transfer to satisfy this requirement	
			OR		
			CIS 22CH	Data Abstraction and Structures - HONORS	4.50
				Must complete an additional university course after transfer to satisfy this requirement	
			OR		
			CIS 26B	Advanced C Programming	4.50
				Must complete an additional university course after transfer to satisfy this requirement	
COMPSCI 61C	Machine Structures	4.00	No Course Articulated		
COMPSCI 70	Discrete Mathematics and Probability Theory	4.00	This course must be taken at the university after transfer		
EECS 16A	Designing Information Devices and Systems I	4.00	Effective next fall, this articulation will be revised		
			ENGR 37	Introduction to Circuit Analysis	5.00
			AND		
			MATH 2A	Differential Equations	5.00
			AND		
			MATH 2B	Linear Algebra	5.00
				Must complete an additional university course after transfer to satisfy this requirement	
				Regular and honors courses may be combined to complete this series	

	OR Effective next fall, this articulation will be revised **ENGR 37** Introduction to Circuit Analysis 5.00 **AND** **MATH 2AH** Differential Equations - HONORS 5.00 **AND** **MATH 2BH** Linear Algebra - HONORS 5.00 Must complete an additional university course after transfer to satisfy this requirement Regular and honors courses may be combined to complete this series
