

Date Published: 5/19/26

i **ASSIST does not take the place of a counselor on your campus.** It is intended to help students and counselors work together to establish an appropriate path toward transferring from a public California community college to a California university.

Major Articulation Agreement

Bioengineering, B.S.

Effective during the **2025-2026** academic year

	To: University of California, Berkeley 2025-2026 General Catalog, Semester	←	From: De Anza College 2025-2026 General Catalog, Quarter
--	--	---	--

COLLEGE OF ENGINEERING JUNIOR TRANSFER ADMISSION REQUIREMENTS

Admission to the UC Berkeley **College of Engineering** is highly competitive.

Applicants to the **Bioengineering** major must complete all required core UCB preparation courses in order to be eligible for admission. Only applicants who have completed 100% of these required courses will be considered for admission. Required courses for admission to the major must be completed by the end of the spring semester prior to fall enrollment. **A summer 2026 course is not considered to be "work in progress" for the fall 2026 selection process.**

If a series of courses at a community college is required (e.g., Chemistry 101 + 102 + 103=Chemistry A and B), all the courses in the series must be completed, and must (unless otherwise indicated) be completed at the same community college. Partial completion (e.g., 2 of the 3 required courses) will result in zero credit toward the requirement(s), and the applicant will NOT be considered for admission. The only exception to the series rule is Math 54. If Math 54 is split into two different courses, one covering linear algebra and one covering differential equations, we strongly encourage applicants to take both courses at the same community college; however, the College of Engineering will accept linear algebra from one school and differential equations from a different school.

Lower division UC Berkeley courses required for graduation (but not admission) are also listed in the major agreements and are strongly recommended to be taken to strengthen one's application. The more of these courses completed, the stronger the application will be.

Required core courses for admission: (all these courses must be completed to be considered for admission).

- UCB CHEM 1A/1AL; 3A/3AL
- UCB MATH 51; 52; 53; 54
- UCB PHYSICS 7A; 7B
- UCB READING AND COMPOSITION A; B

Strongly recommended courses: (if your college offers the courses listed below and they are articulated, taking them will strengthen your application) If no articulation, students are strongly encouraged to take a course in electronics or circuits AND a course in programming.

- UCB ENGIN 7 or COMPSCI 61A
- UCB EECS 16A
- UCB COMPSCI 61B
- UCB COMPSCI C8
- UCB MAT SCI 45/45L
- UCB COMPSCI 70

Articulation subject to completion of a university course

If the above statement is indicated under any of the community college course listed below, you will be required to take an additional course at UC Berkeley in order to complete the requirement.

Consult the Bioengineering website for which courses above would best match the sample track you wish to pursue. <http://bioeng.berkeley.edu/undergrad>

Admission is primarily based on the completeness of the applicant's lower division preparation and the level of academic achievement reflected in the student's grade point average. The UC applicant essay also plays an important role in the selection process at UC Berkeley. The College reviews the essay for evidence of interest in the student's chosen field and a thoughtful match between the academic program and the student's academic and career objectives.

The College of Engineering requires six humanities/social science courses, two of which must be reading and composition. The only non-technical admission requirement for the College of Engineering is the coursework equivalent to UC Berkeley's Reading and Composition A and B, which must be taken for a letter grade. The College of Engineering **does not recognize the Intersegmental General Education Transfer Curriculum (Cal-GETC/IGETC) and strongly discourages** students from following this option due to the number of major-specific technical courses required for engineering transfer admission.

NOTE: The Reading and Composition requirements cannot be satisfied by Cal-GETC/IGETC; applicants must complete the specific courses indicated as Reading and Composition A and B equivalents to be considered for admission. Failure to complete the exact courses listed will mean the applicant will NOT be considered for admission.

The remaining four humanities/social science requirement courses are not considered for admission purposes but are required for graduation. See <http://engineering.berkeley.edu/hss> for the College of Engineering humanities/social science breadth requirements and courses. Courses which are three semester units or more that appear in the following categories on the "General Education/Breadth" section of assist.org may be used to satisfy **two of** the remaining four humanities/social science course

requirements for the College of Engineering. ARTS AND LITERATURE; HISTORICAL STUDIES; INTERNATIONAL STUDIES; PHILOSOPHY AND VALUES; SOCIAL AND BEHAVIORAL SCIENCES. Additionally, courses that teach a foreign language may be used to satisfy this requirement.

SAT/ACT/A-level test scores and letters of recommendation are NOT considered for admission.

NOTE: ALL REQUIRED COURSES AND ALL STRONGLY RECOMMENDED COURSES FOR THE MAJOR MUST BE TAKEN FOR A LETTER GRADE. FOR MORE INFORMATION, PLEASE CHECK THE COLLEGE'S WEB SITE FOR THE COLLEGE OF ENGINEERING UNDERGRADUATE GUIDE.

TEST CREDIT

Some Advanced Placement, International Baccalaureate, and A-Level exams can fulfill requirements in the College of Engineering. For details, please see <https://engineering.berkeley.edu/students/undergraduate-guide/exams/>.

REQUIRED COURSES FOR ADMISSION

1 Complete A and B

A

CHEM 1A

General Chemistry

3.00

AND

CHEM 1AL

General Chemistry Laboratory

2.00

AND

CHEM 1B

General Chemistry

4.00

CHEM 1A

General Chemistry I

5.00

AND

CHEM 1B

General Chemistry II

5.00

AND

CHEM 1C

General Chemistry III

5.00

Regular and honors courses may be combined to complete this series

OR

CHEM 1AH

General Chemistry I - HONORS

5.00

AND

CHEM 1BH

General Chemistry II - HONORS

5.00

AND

CHEM 1CH

General Chemistry III - HONORS

5.00

Regular and honors courses may be combined to complete this series

CHEM 3A

Chemical Structure and Reactivity

3.00

AND

CHEM 12A

Organic Chemistry I

5.00

CHEM 3AL Organic Chemistry Laboratory 2.00	CHEM 12B Organic Chemistry II 5.00
MATH 51 Calculus I 4.00	MATH 1A Calculus I 5.00 AND MATH 1B Calculus II 5.00 L Regular and honors courses may be combined to complete this series
	← OR MATH 1AH Calculus I - HONORS 5.00 AND MATH 1BH Calculus II - HONORS 5.00 L Regular and honors courses may be combined to complete this series
MATH 52 Calculus II 4.00	MATH 1B Calculus II 5.00 AND MATH 1C Calculus III 5.00 L Regular and honors courses may be combined to complete this series
	← OR MATH 1BH Calculus II - HONORS 5.00 AND MATH 1CH Calculus III - HONORS 5.00 L Regular and honors courses may be combined to complete this series
MATH 53 Multivariable Calculus 4.00	MATH 1C Calculus III 5.00 AND MATH 1D Calculus IV 5.00 L Regular and honors courses may be combined to complete this series
	← OR MATH 1CH Calculus III - HONORS 5.00 AND MATH 1DH Calculus IV - HONORS 5.00 L Regular and honors courses may be combined to complete this series

MATH 54 Linear Algebra and Differential Equations 4.00	MATH 2A Differential Equations 5.00 AND MATH 2B Linear Algebra 5.00 L Regular and honors courses may be combined to complete this series ← OR MATH 2AH Differential Equations - HONORS 5.00 AND MATH 2BH Linear Algebra - HONORS 5.00 L Regular and honors courses may be combined to complete this series
--	---

READING AND COMPOSITION REQUIREMENT

B

Courses that satisfy Reading & Composition A	ENGL C1000 Academic Reading and Writing 5.00 OR ← ENGL C1000H Academic Reading and Writing - HONORS 5.00 OR ESL 5 Advanced Composition and Reading 5.00
Courses that satisfy Reading & Composition B	ENGL C1001 Critical Thinking and Writing 5.00 OR ENGL C1001H Critical Thinking and Writing - HONORS 5.00 ← OR EWRT 1B Reading, Writing and Research 5.00 OR EWRT 1BH Reading, Writing and Research - HONORS 5.00

STRONGLY RECOMMENDED COURSES

2 Complete A and B

Complete 1 course from the following.

A

ENGIN 7	Introduction to Computer Programming for Scientists and Engineers (MATLAB)	4.00	← No Course Articulated
COMPSCI 61A	The Structure and Interpretation of Computer Programs	4.00	← No Course Articulated

B

EECS 16A	Designing Information Devices and Systems I	4.00	Effective next fall, this articulation will be revised ENGR 37 Introduction to Circuit Analysis 5.00 AND MATH 2A Differential Equations 5.00 AND MATH 2B Linear Algebra 5.00 L Must complete an additional university course after transfer to satisfy this requirement L Regular and honors courses may be combined to complete this series
			← OR
			Effective next fall, this articulation will be revised ENGR 37 Introduction to Circuit Analysis 5.00 AND MATH 2AH Differential Equations - HONORS 5.00 AND MATH 2BH Linear Algebra - HONORS 5.00 L Must complete an additional university course after transfer to satisfy this requirement L Regular and honors courses may be combined to complete this series
COMPSCI 61B	Data Structures	4.00	CIS 22C Data Abstraction and Structures 4.50 L Must complete an additional university course after transfer to satisfy this requirement OR CIS 22CH Data Abstraction and Structures - HONORS 4.50

			L Must complete an additional university course after transfer to satisfy this requirement OR CIS 26B Advanced C Programming 4.50 L Must complete an additional university course after transfer to satisfy this requirement
COMPSCI C8 Foundations of Data Science 4.00 Same as STAT C8, INFO C8, DATA C8	←	CIS 11 Foundations of Data Science for All 4.50	
MAT SCI 45 Properties of Materials 3.00 AND MAT SCI 45L Properties of Materials Laboratory 1.00	←	No Course Articulated	
COMPSCI 70 Discrete Mathematics and Probability Theory 4.00	←	This course must be taken at the university after transfer	

END OF AGREEMENT
